

Halogen Free Statement

Cirrus Logic works closely with our suppliers to gather 3rd party test data at the homogeneous material level. Using this test data, Cirrus Logic certifies that all ICs currently available for sale or delivery are “halogen free”.

Cirrus Logic defines a product as halogen free when:

Halogen Materials	Concentration
Bromine (Br)	≤ 900 ppm
Chlorine (Cl)	≤ 900 ppm
Sum of Br + Cl	≤ 1500 ppm
