
On June 1, 2007, the European Regulation No 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (the “REACH Regulation”) took effect in the European Union.

The REACH Regulation identifies substances of very high concern (SVHC). Any substance defined by European Chemicals Agency (ECHA) as being of very high concern must not be used, manufactured or imported without the prior authorization of the Agency once it has been included on a list given in Annex XIV of the REACH Regulation: (http://echa.europa.eu/chem_data/candidate_list_table_en.asp).

Identified SVHCs in articles must be notified to the Agency when the substance is present:
- In total over 1 metric ton per producer/importer per year; and
- Above a concentration of 0.1% by weight

Cirrus Logic, Inc. and its subsidiaries (including, but not limited to, Cirrus Logic International (UK) Ltd.) have determined that its IC products are non-emitting articles as defined by the REACH regulation (substance is not intended to be released under normal or reasonably foreseeable conditions of use) and do not contain any listed SVHC per the ECHA list last updated June 16th, 2020 (REACH-209), in concentrations greater than 0.1% by weight except as noted:
- Some IC products in BGA semiconductor packaging may contain greater than 0.1% by weight of 4,4’-isopropylidenediphenol (CAS# 80-05-7)

In accordance with Article 33 of REACH please contact your sales representative for further information regarding reportable limits and REACH communications.

In accordance with Article 67 of REACH and in conjunction with Annex XVII:
- None of the substances in restriction is present under applicable conditions in IC products

Cirrus Logic will take reasonable steps to monitor the REACH regulations and if there are any material changes that affect this disclosure, shall update it as deemed necessary.

NOTE: This document is not intended to be legal advice regarding the interpretation of the REACH Regulation described above. Please review the REACH Regulation independently and in consultation with your own legal counsel.
